Barrier Load Louvres

DUCO Barrier Load Louvres protect people from falling through open windows in high-rise applications, such as student housing, retail and commercial applications. The louvres are barrier load approved to BS6180 and impact resistant tested to EN 13049. They are available in various frame options to suit glazing systems and have several blade, angle and pitch options.

BARRIER LOAD LOUVRE OPTIONS:

- Several blade angles: 3° and 45°
- Several framing options: LuxFrame or SlimFrame
- Bespoke sizes to suit all projects (calculations carried out by DUCO)

Tested & Certified:

- ➔ BS 6180 Barrier Load approved
- ➔ EN 13049 tested (pending)
