DucoBox Energy Comfort (Plus) D250

DUKO

Available in 2 versions

1. Compact and lightweight unit
2. Plus variant with metal casing for extra attenuation

DucoBox Energy Comfort (Plus) D250

Compact, lightweight and powerful – the perfect balance

The **DucoBox Energy Comfort (Plus) D250** (250 m³/h at 150 Pa) has a compact design for small spaces such as flats and fits perfectly into a wall cupboard or a washing machine cabinet.

This lightweight model from **The Energy Family** operates quietly thanks to its sound absorbing casing and saves installers 50 % of their time through **automatic calibration**.

The system combines all advantages of the MVHR system: 2-zone control, automatic calibration, copy function and **head-up display**.
