at least 180 cm above the floor

Ø Duct connection diameter:

125 mm

The **DucoVent Design AK** is an **aesthetic vent**, available with five different cover plates: Square (standard and XL), Rounded Square (standard and XL) or Round. The sleek design, combined with **simple installation** thanks to its magnetic fastening, ensures virtually **invisible** integration into any room where air extraction is specified. The acoustic rings provide optimal **sound absorption** and easy calibration. Suitable for ceiling and wall mounting. **Easy to clean** without disturbing settings.

The DucoVent Design Round **AK** and all XL models are **also suitable for use as supply vents**. Two inserts are included which can be used to reduce the outlet angle, when positioning the vent close to a wall or in a corner for example.

+ Optimum damping thanks to the removable acoustic rings

+ Functional fixing with magnets makes loss of adjustment impossible

Square

DucoVent Design Square **Standard AK**
(Width 180 x Height 180 x Depth 52 mm)
