DucoVent **Premium**

Trimless

GENERAL FEATURES

Maximum flow rate:Extraction: 50 m³/hSupply: 50 m³/h**Colour:**

White (visible parts can be painted over with a synthetic primer)

Mounting:Suitable for ceiling and wall
min. 180 cm above floor level
min. 35 cm from the wall**Ø Duct connection:**

125 mm - rubber mounting ring

Adjustment:

32 adjustable positions

The DucoVent **Premium Trimless** is the ultimate designer valve and can be used for both supply and extraction with a maximum flow rate of 50 m³/h.

A 'trimless' integration in the plasterwork makes the valve virtually invisible. The thoughtful design ensures a diffuse air supply via the Coanda effect and thus guarantees optimum comfort. Aesthetics and quality in one product!

Trim

GENERAL FEATURES

Maximum flow rate:Extraction: 75 m³/hSupply: 50 m³/h**Colour:**

White (visible parts can be painted over with a synthetic primer)

Mounting:Suitable for ceiling and wall
min. 180 cm above floor level
min. 35 cm from the wall**Ø Duct connection:**

125 mm - rubber mounting ring

Adjustment:

34 adjustable positions

The DucoVent **Premium Trim** is applicable for both supply and exhaust with a maximum flow rate of 50 m³/h for supply and 75 m³/h for extraction.

Thanks to a minimal mounting height and paintable visible parts, the valve virtually merges into the ceiling. The thoughtful design ensures a diffuse air supply via the Coanda effect and thus guarantees optimum comfort. Aesthetics and quality in one product! A perfect combination with DUCO's high-quality ventilation solutions!
