

Discover the magic of zonal ventilation

DUCO

Ventilation at the rhythm of your life

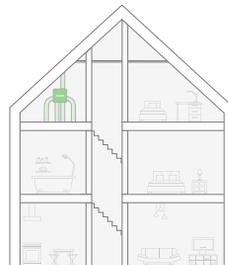

A fresh shower after getting up

The ventilation system detects moisture and **only ventilates the bathroom.**

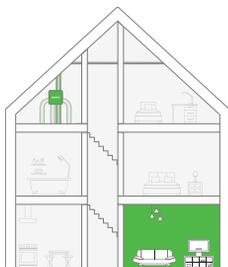

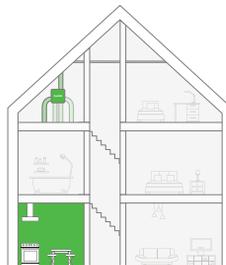

Off to a productive day at work

The energy-efficient ventilation system does not detect CO₂ or moisture and falls back to a **minimum operation of 10%.**

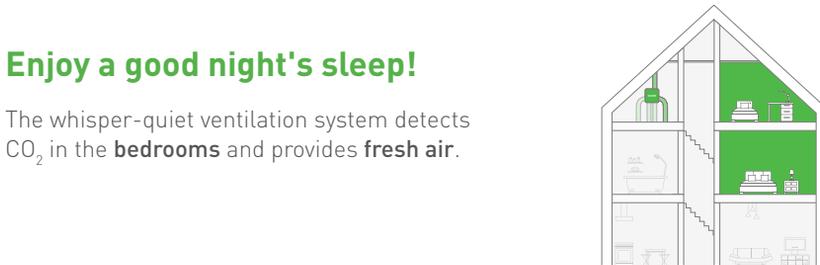

Back home. Let's cook a tasty meal

The ventilation system **only ventilates the kitchen** based on moisture.

Relax with a nice movie

The ventilation system **only ventilates the living room** based on CO₂ measurement.

Enjoy a good night's sleep!

The whisper-quiet ventilation system detects CO₂ in the **bedrooms** and provides **fresh air**.

**Silence and energy efficiency,
that's the magic of zonal ventilation!**

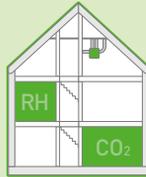

30% less noise

40% energy savings

Discover the magic of zonal ventilation

	 Without ventilation	 Central ventilation Manually controlled	 Central ventilation Demand controlled	 Zonal ventilation Demand controlled
Health Indoor Air Quality				
Comfort Acoustics				 30% less noise
Sustainability Energy consumption				 40% energy savings

FRESH AIR

FRESH AIR,
AT THE RIGHT TIME

FRESH AIR,
AT THE RIGHT TIME,
IN THE RIGHT
ROOM
